3. **"Part-Time Officer" at Japanese Language Proficiency Test (JLPT)** *(Volunteer)*
   - Checked and verified the number of question papers.
   - Confirmed and matched the seat numbers of examinees.
   - Enhanced attention to detail and effectively managed logistics tasks.

Activities and Projects Participation

Academic Year

1. **AI-Based Fraud Detection & Adversarial Robustness** Sep 2026
   - Developed an XGBoost-based fraud detection system using the PaySim dataset.
   - Tested adversarial attacks and built a Streamlit dashboard for prediction and explainability.

2. **ATM Workload Analysis** Sep 2026
   - Developed using Python, Streamlit, K-Means, and PCA.
   - Analyzed 300,000 synthetic ATM transactions and built an interactive workload dashboard.

3. **Intelligent Endpoint DLP System** Aug 2026
   - Developed a Python-based endpoint DLP system for detecting sensitive USB data transfers.
   - Implemented USB monitoring, file scanning, risk scoring, and Allow/Alert/Block policies.

4. **UIT_CTF** Jan 2026 – March 2026
   - Participated as a Frontend Developer and Security Tester in an Ethical Hacking & Penetration Testing course project.

5. **Distributed CyberAttack Log Analysis** Jan 2026 – March 2026
   - Participated as a Team Leader, Developed using Python , Bash / Shell scripting and Hadoop Distributed System Architecture

6. **SignLan Bridge** Jan 2026 – March 2026
   - Participated as a Team Leader, Developed using Python, Flask, HTML, CSS, JavaScript, Cryptography libraries in Python

7. **Job Portal System** Feb 2025 – March 2025
   - Developed a Job Portal System as part of "Software Requirement Engineering" subject, incorporating use case, class, sequence, and ER diagrams.

8. **Current Chapters-Learning Aid Books** Dec 2024 – March 2024
   - Took responsibility as a Good Member, Developed using C++ with Arduino IDE, Engineering Circuits and Signals.

9. **Life on Land** July 2024 – Sep 2024
   - Participated as a Team Leader, Developed using MySQL Database
   - Presented key sections, including **Project Background** and **ER Diagram**, for the **Life on Land database**.

10. **Presentation Group** 2nd Year, First Semester
    - Participated as a Team Leader

- Delivering presentations for subjects including **Software Modeling and Analysis, and Business Information System,** to summarize and present key concepts after completing each chapter

11. **Sorting Analyzer** Feb 2024 – March 2024
    - Participated as a Team Leader, Developed using C++

12. **Solar Shine Pathways** Dec 2023 – Feb 2024
    - Participated as a Team Leader
    - Designing and Implementing a hardware Street Light Project aimed at enhancing energy efficiency and safety

13. **"LyriX" Music Streaming App UI Design** 28 Jan 2024 – 24 Feb 2024
    - Took responsibility as a Good Member, Developed using Figma

14. **Educational Website UI Design** Sep 2023 – Oct 2023
    - Took responsibility as a Good Member, Developed using Figma

15. **CodeVerse** July 2023 – Sep 2023
    - Participated as a Team Leader, Developed using HTML, CSS, JS, Bootstrap
    - Coding Learning Website for 6 to 17 aged kids, name "CodeVerse"

Certifications

Certificate of Completion in "CCNA Switching Routing and Wireless Essentials" Dec,2025

- From Cisco Networking Academy

Certificate of Completion in "CyberSecurity Essentials" Dec , 2025

- From Cisco Networking Academy

Certificate of Achievement in "Southeast Asia EcoHack 2024 competition" 11 Oct , 2024

- From GREEN TALENT GENERATION

Certificate of Completion in "ASEAN Youth for Digital Action" 17 July , 2024

- From ASEAN Youth for Digital Action Program

Certificate of Completion in "Workplace Orientation Program for AYDA" 17 July , 2024

- From INOTEK Foundation

Certificate of Completion in "Online Internship at Balini Organic" 11 June , 2024

- From Founder of Balini Organic

Certificate of Completion in "Youth Entrepreneurship Training Camp" 2 May , 2024

- From American Centre Yangon
- Got "Second Prize" in Business Pitch Deck Competition

Certificate of Completion in "Getting Started with LINUX Fundamentals" 26 Feb , 2024

- From RedHat Training and Certification

Certificate of Completion in "UI/UX Essential Course" 24 Feb , 2024

- From MM PROJECT Multi-Media Design Institute in Myanmar

Certificate of Volunteering at UIT Fresher Welcome Event 29 Jan , 2024

- From UIT Event Organizer Team

Certificate of Participation in Data Science Explorers 2023 Training Session 19 April , 2023

- From ASEAN Foundation

Certificate of Completion in "Essential Computer Basic Class A+" 2 Nov , 2021

- From British University college in Myanmar

Programming Language and Tools

C++, HTML, CSS, JS, Bootstrap, MERN Stack, PHP, Laravel, Prolog, Python, Java SE, SQL Basic, Figma, Web Development

Language Proficiency

Burmese	Native Language
English	Upper - Intermediate
Chinese	Beginner (HSK 1 Level, In Progress)
Thai	Beginner (Learning In Progress)
